

MC101 COOKER

3+1 HOB GRILL & OVEN

DETAILS:

With three gas burners, a 1000 W electric hotplate and 39 l fan forced cooking oven, the MC101 is a full feature cooker. Its enamelled and recessed surfaces make it easy to clean, while the enamel surface also maintains a chic look over time due to its resistance to flame marking. The slick panelled sides and backs protect the unit from damage, and the side cut out handles allow for easy lifting. An automatic shut off switch on the lid and flame failure devices on all gas burners will keep you safe if flames are blown out or if knobs are accidentally opened. It also ensures that electricity won't be activated, and gas won't be leaked if turned on by accident.

SPECIFICATIONS:

Hob:

- 3x gas burner (1x Rapid + 2x semi rapid burners)
- 1x Electrical hotplate (1000W)
- Enamelled surface easy cleaning
- Recessed surfaces Spill friendly design
